

*We invite you to discuss together the following within the WS:*

*What we mean by “vulnerable patient”?*

*What are the types of vulnerable patients?*

*Patients' vulnerability - is it temporary or permanent?*

*How can I act as a physician in emergency situations when dealing with vulnerable patients?*

*What solutions do doctors have for vulnerable patient autonomy?*

*Do legal regulations guarantee the patient's autonomy?*

*If there are cases of heteronomy how can they be solved?*

*How to diminish the risk of uncertain diagnosis, respecting the principles of bioethics?*

*Is the principle of Justice applied to vulnerable patients?*

*Can the correct medical or surgical treatments be applied to vulnerable patients?*
