
The third edition of the workshop
**MEDICAL PRESENTATIONS – A
PRACTICAL APPROACH FOR STUDENTS**

Timișoara, 28 November 2018

Coordinators:

Iulia Cristina Frînculescu

Simona Nicoleta Staicu

The previous editions of this workshop created a solid foundation for the introduction of medical students to oral presentations. The third edition of the workshop aims to improve presentation skills in medical settings.

To do that, we invite medical students to practise the art of public speaking in a formal environment. Workshop participants will be presenting medical topics in English, nowadays the international language of medicine. Medical students are thus getting accustomed to the international medical conference style.

The presentation session will be carried out in English. A separate poster session will be held in other languages, such as French, German, or Romanian language.

Scientific & organising committee
