

COMPETITIVE ENTRANCE EXAM – JULY 2019

Instructions and information the candidates

In the Victor Babes University of Medicine and Pharmacy, Timisoara, the enrollment to undergraduate studies taught in English, at the faculties of **Medicine** and **Dental medicine**, is conditioned by the candidates having passed a written competitive entrance exam, consisting in 50 multiple-choice questions.

These questions are from biology. The questions can have between 1 and 4 correct answers and receive 1 point if all the correct answers have been checked. If only part of the correct answers have been checked, the answers will be graded proportionally. An incorrect answer that has been checked results in the annulment of the entire score for the respective question (0 points).

During the competitive entrance exam candidates can use only the answer sheets and the stamped drafts received from the supervising committee.

For an answer to be validated, candidates have to fill in completely the ellipses corresponding to the answers they consider correct, using the black felt-tipped pens received from the supervisors, without crossing the margins; the ellipses which are not considered correct will be left blank. For example, if the correct answers to question number 1 are A, B and E, the exam sheet has to be filled in as follows:

Nr.	A	B	C	D	E
1	<input checked="" type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>

Correct!

The table below shows the incorrect way to fill in the exam sheet:

Nr.	A	B	C	D	E
1	<input checked="" type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input checked="" type="radio"/>
2	<input checked="" type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input checked="" type="radio"/>	<input checked="" type="radio"/>

Incorrect!

The average time necessary for transcribing the correct answers from the draft sheet to the final exam sheet is 20 minutes. We advise candidates to estimate the necessary time for this operation to 30 minutes.

It is very important **NOT** to deteriorate or fold the exam sheet. It is forbidden to use erasers or correctors on the exam sheet, as these might mislead the computerized assessment system. Alterations, erasures, corrections or partially filled in ellipses lead to the invalidation of the respective question and the responsibility, in this case, belongs wholly to the candidate. If candidates have mistakenly filled in the answer sheet they can ask for another exam sheet only **ONCE**. **Should candidates request a second exam sheet,**

they will have to fill it in in the initial time set for all the other candidates; no extra time is added.

The answer sheets will be scanned respecting the number order of the candidates. In the case of candidates who did not participate in the exam, who withdrew or were eliminated from the exam, the blank exam sheets will be scanned. The scanned exam sheets will be assessed/graded in the presence of the candidate and of two witnesses, and the number of points will be written on the printed form. The final mark will be confirmed by signature by the candidate, witnesses and the head supervisor. If there are problems during the scanning and grading of the exam sheet, the respective exam sheet will be scanned again, in the presence of the candidate and two witnesses. If the problem persists, the Central Admission Committee will be notified.

The maximum number of points that can be obtained is 50. In order to obtain the final number of points, the points are multiplied by 0.18, each candidate receiving 1 point for the presence.

The minimum final mark cannot be less than 5 (five).

We wish you good luck!
